Re: Compliance Assistance
Facility Visit

RCRA EPA ID: ILD 984 830 695

Dear Mr. Gondek:

One of the United States Environmental Protection Agency's goals for Fiscal Year 2008 is to complete a number of Compliance Assistance Facility Visits (Visit) at Federal facilities. These Visits are not inspections to determine compliance, but are Visits where EPA Region 5 Staff would provide information to help our federal partners better understand and meet obligations under environmental regulations.

The focus during the Visit will be the Resource Conservation and Recovery Act (RCRA) program. In past Visits, I have provided a brief overview of RCRA, walked participants through an actual compliance evaluation inspection, provided information regarding available compliance assistance resources and a list of Federal and State compliance assistance contacts, and responded to an array of compliance assistance questions. The Visit can, however, be tailored to your particular need. For example, if your facility is a Hazardous waste generator dealing with satellite accumulation concerns, I could focus on the accumulation time for generators.

If you are interested in a Visit at your facility, please contact me by phone at 312-886-4454 or send me an e-mail at barringer.uylaine@epa.gov.

Sincerely yours,

A handwritten signature in cursive script that reads "Uylaine E. Barringer".

Uylaine E. Barringer
Compliance Assistance Coordinator
